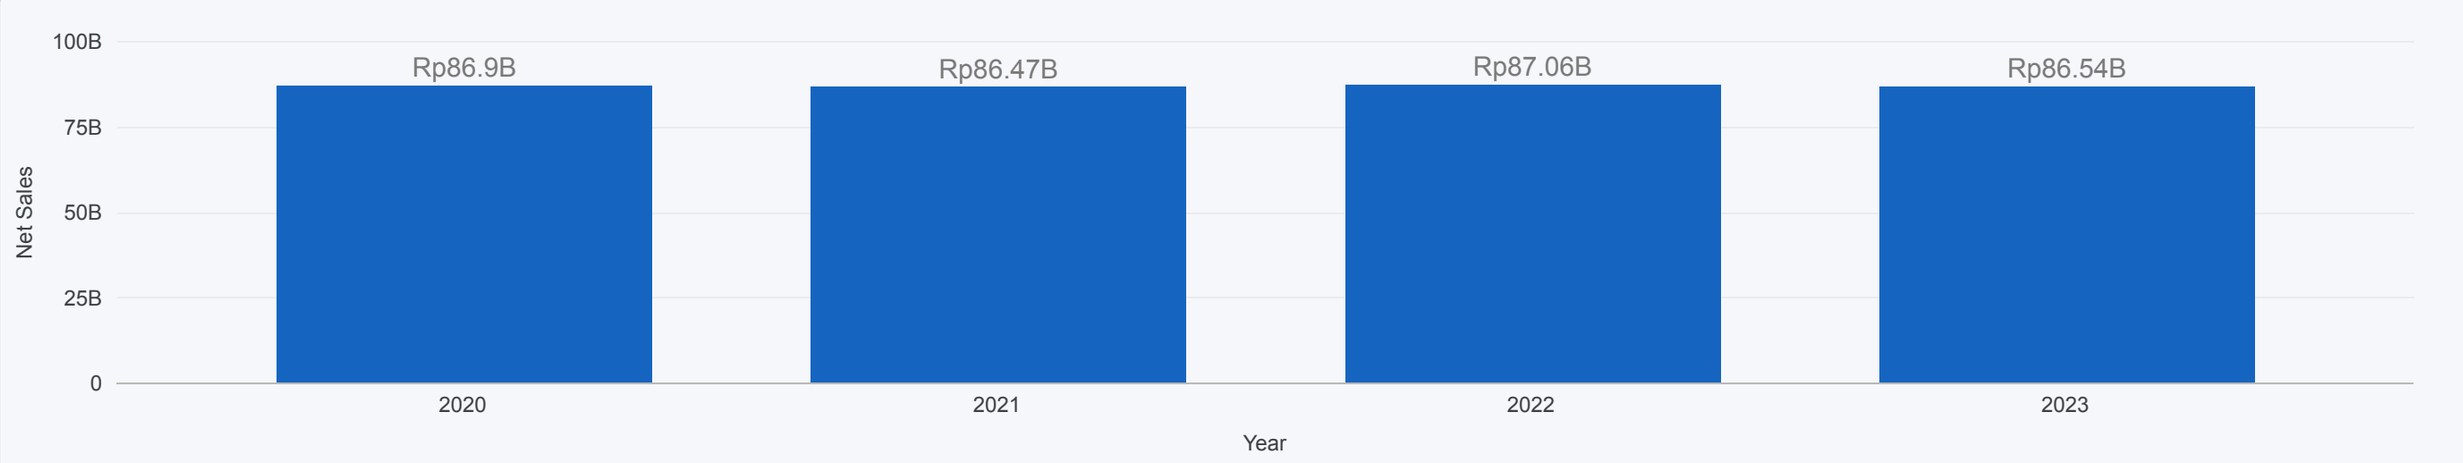
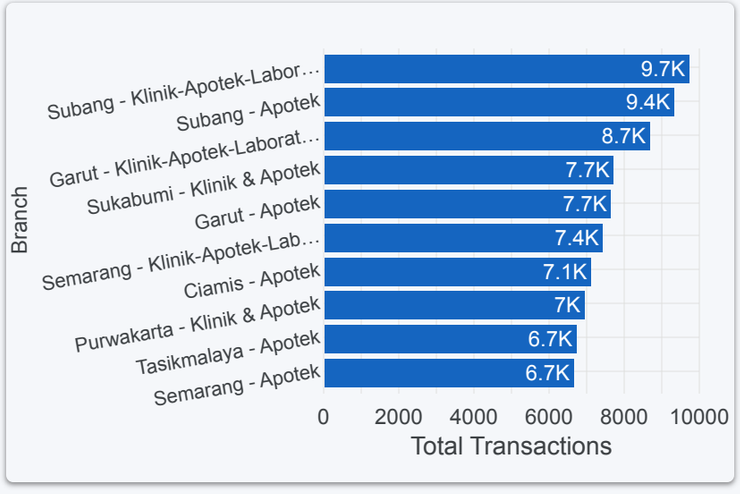
Revenue Trend (2020–2023)

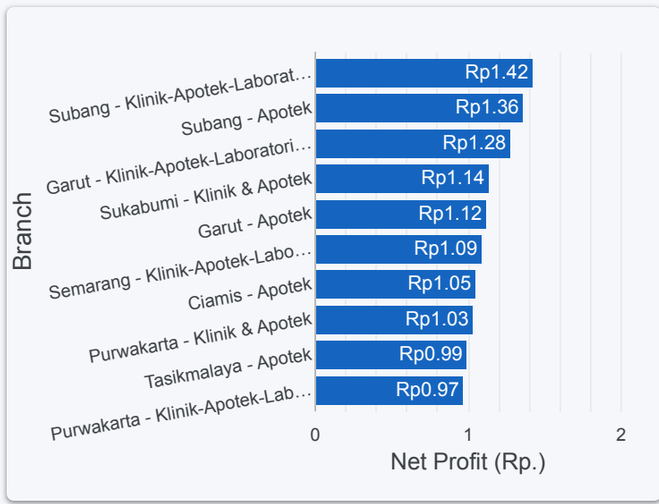


Revenue remained relatively stable, indicating limited long-term business growth.

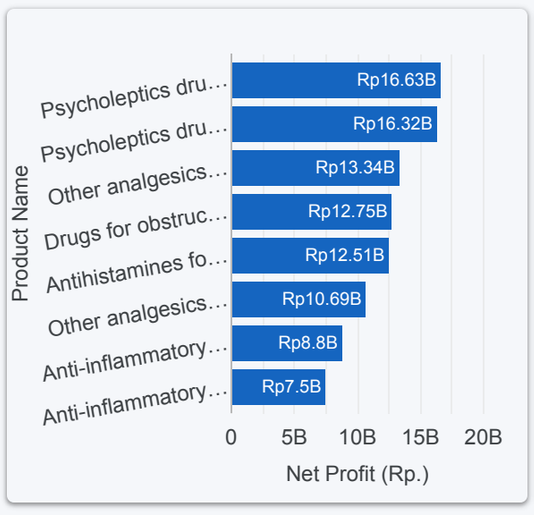
Top 10 Branches by Transactions



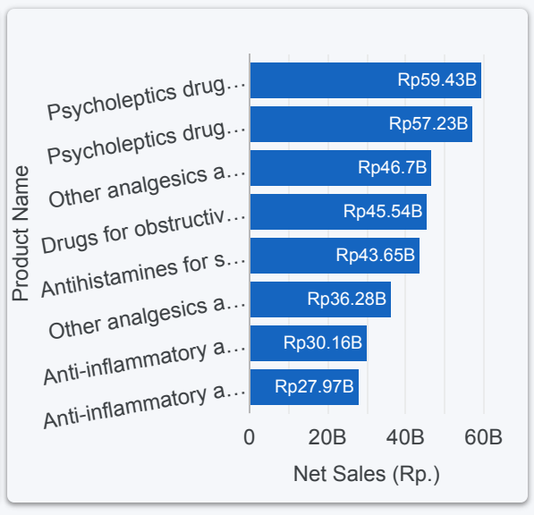
Top 10 Branches by Profit



Top 10 Products by Profit



Top 10 Products by Sales



INSIGHT:

- Subang and Garut branches consistently contributed to the largest revenue-generating transactions.
- High-value transactions were primarily driven by Psycholeptics products.

RECOMMENDATION:

Strengthen high-performing branches while reducing dependency on a limited number of products through portfolio diversification.

Top 5 Revenue & Profit Transactions

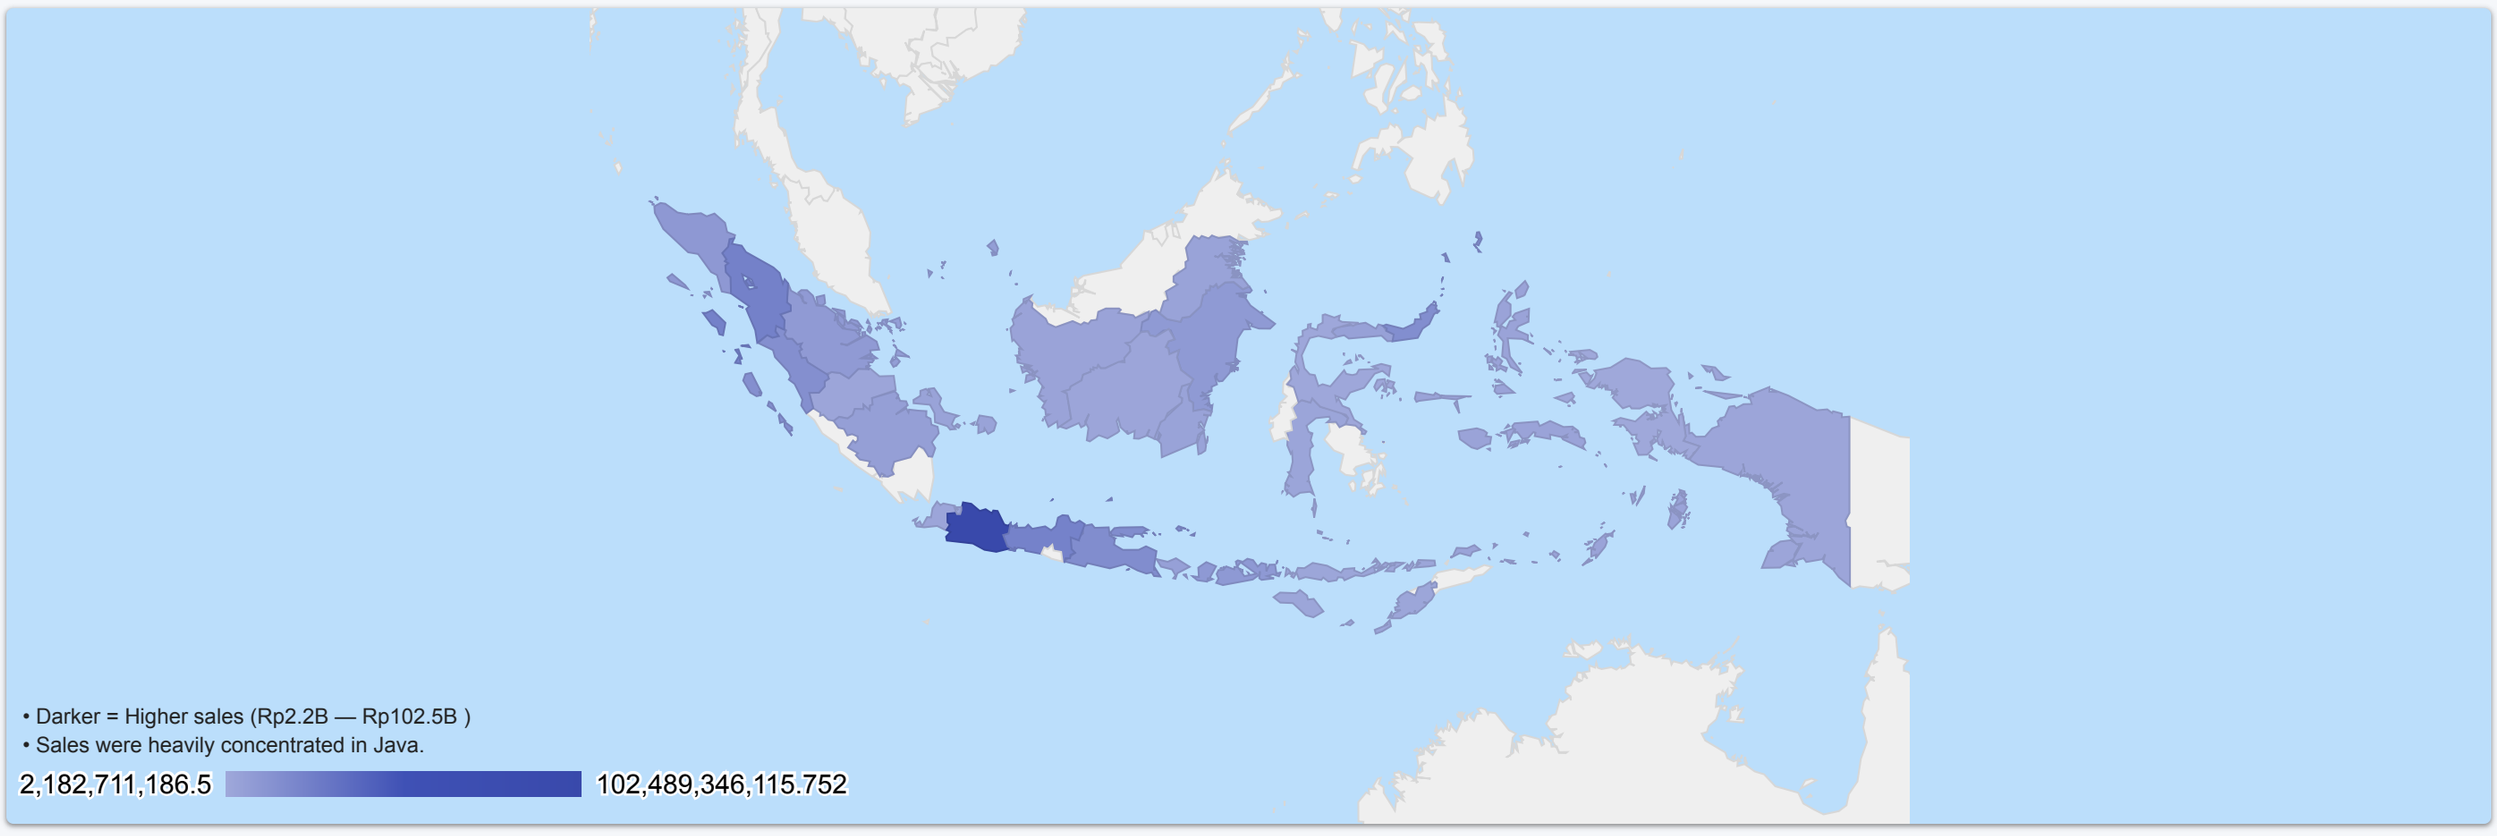
Date	Branch	Product Name	Net Sales (Rp.)	Net Profit (Rp.)	Transaction Rating Score
1. May 15, 2020	Subang - Apotek	Antihistamines for systemic use	Rp4,833,297	Rp1,449,989.01	24
2. Jan 18, 2021	Garut - Apotek	Anti-inflammatory and antirheumatic products, non-steroids, Propionic acid derivatives	Rp4,234,411	Rp1,270,323.28	22
3. Sep 10, 2020	Subang - Klinik-Apotek-Laboratorium	Psycholeptics drugs, Hypnotics and sedatives drugs	Rp4,177,608	Rp1,233,720.94	25
4. Jul 17, 2023	Tasikmalaya - Apotek	Psycholeptics drugs, Anxiolytic drugs	Rp4,121,619	Rp1,201,733.29	23
5. Dec 22, 2023	Ciamis - Apotek	Psycholeptics drugs, Anxiolytic drugs	Rp4,059,793	Rp1,217,937.91	18

KEY INSIGHTS:
- High-value transactions were consistently recorded throughout the observed period.
- Large transactions were dominated by Pharmacy and Clinic-Pharmacy branches.

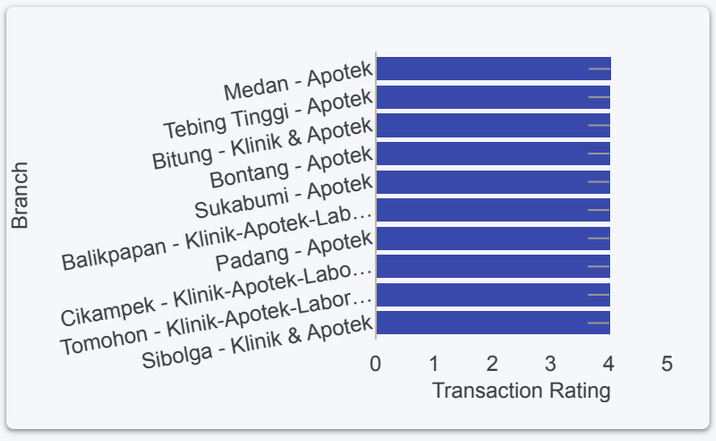
RECOMMENDATION:

Strengthen sales performance across branches to improve high-value transaction growth.

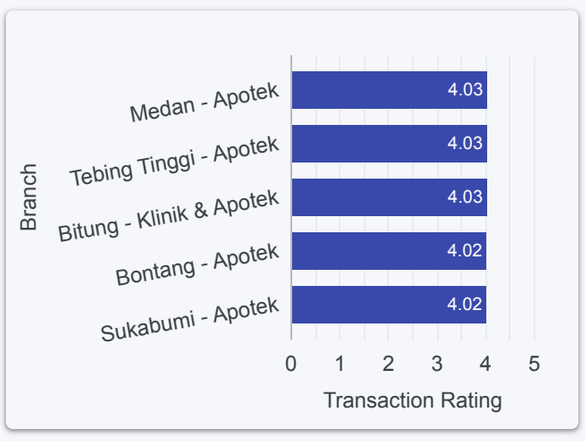
Sales Distribution Across Provinces



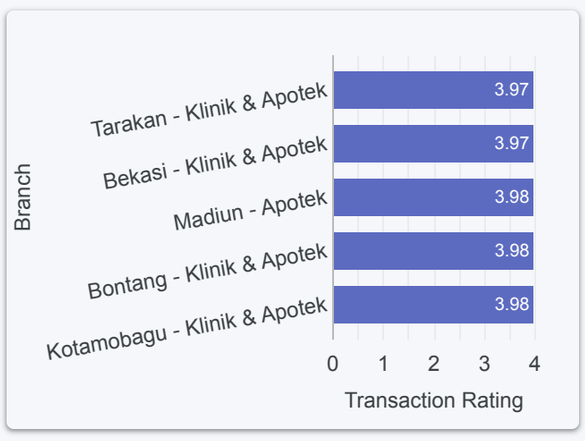
Average Customer Rating by Branch



Highest Transaction Ratings



Lowest Transaction Ratings



INSIGHT:

- Branch ratings were highly consistent, ranging from 3.97 to 4.03.
- Service quality differences between branches were relatively small.
- Sales performance appeared to be influenced more by geographic factors than by customer ratings.

🔥 Main Insight:

Kimia Farma experienced stable revenue performance from 2020 to 2023 without significant growth, indicating the need for business expansion strategies.

🔍 Key Factors:

1. High dependency on Psycholeptics products
2. Sales concentration in Java
3. Uneven branch activity

📉 Potential Impacts:

1. High market dependency risk
2. Missed opportunities in other regions
3. Limited business growth

🚀 Recommendations:

1. Diversify products into high-potential categories such as analgesics and respiratory products
2. Expand market coverage outside Java
3. Replicate strategies from high-performing branches
